EXPERIENCE

Jr Reactjs developer

(Nov 2023 – Present)

Zysk technologies | Bengaluru

- Developed complex functionalities now in production, enhancing user engagement and satisfaction.
- Developed frontend solutions for diverse projects including EdTech applications, photography apps, portfolio websites, and real estate business applications.

Software Trainee Engineer

(Nov 2022 – April 2023)

Tapasvi Info Solutions | Hathras

- Leveraged Firebase realtime database and cloud functionality to enable real-time chat functionality.
- Demonstrated strong problem-solving skills to address technical challenges and implement innovative solutions for complex features and functionalities.

ACHIEVEMENTS

- Gained a Frontend development certificate from [Simplilearn](#) after completing course in which I learnt HTML, CSS, Javascript, Reactjs.
- Solved 100+ DSA questions on [Coding Ninjas](#), [Leetcode](#) and [Geeks For Geeks](#).

PROJECTS

Personal Portfolio website

HTML | CSS | Javascript

- Created a fully responsive website to showcase all my personal and professional information.
- The website includes details about my experience, skills, achievements, and education.
- Integrated Js libraries for enhancing user experience like typing effect, tilt effect and cool image sliders and added custom cursor.
- <https://vishnu-kumar.netlify.app>

Pushsend AI

Nextjs | Material UI | Tailwind | ChatGPT

- Led development for Pushsend AI, facilitating Meesho sellers to send personalized sales using ChatGPT integrated in frontend and backend.
- Designed and implemented new screens and functionalities to enhance user experience and productivity.
- Integrated backend APIs, including ChatGPT, for seamless frontend-backend communication.

Floless

Nextjs | Material UI | Tailwind

- Utilized ChatGPT and AI tools for fast development, optimizing efficiency and accelerating project timelines.
- Collaborated with team to implement innovative features, boosting user engagement.
- Leveraged external packages to accelerate development while maintaining high-quality standards.

Improvf

Nextjs | Tailwind

- Created Improvf, a web app for students to take quizzes, input personal details, skills, & get scores.
- Implemented resume auto-generation based on user input, streamlining job applications.
- Contributed to enhancing student engagement and career readiness through the innovative features of Improvf
